

Under Efficiency Vermont's Flood Recovery Program, renters are eligible to receive rebates for qualifying appliances and equipment that they own and for which they can provide proof of replacement. To receive the rebates, renters must affirmatively declare ownership of all appliances and equipment for which they are requesting rebates.

To comply with this requirement, the renter must complete and sign this form, and must also have the rental property owner sign the form attesting to the renter's ownership of the appliances and equipment for which the renter is seeking rebates.
